Activity Insight is a web based application that is meant to be a one stop shop for faculty in creating your Curriculum Vitae, NSF or NIH Biosketch, Annual Faculty Review Report and University Dossier. This guide will describe how and where to enter information into Activity Insight.

Penn State faculty may access Activity Insight 24/7 at https://www.digitalmeasures.com/login/psu/faculty. Internet Explorer, Mozilla Firefox, Google Chrome and Safari are all supported browsers for this program. You will sign in to the program using Penn State’s WebAccess credentials.

All fields are optional in this program. From the database main menu, you are able to input information into General Information, Teaching, Scholarship/Research, and Service/Outreach. Information from AI will be used for the annual faculty review period, Dossier, Biosketch and Curriculum Vitae. Dates are very important. Please be sure that each screen has at least one date field completed. Date parameters have to be chosen when running reports so please enter at least one date for each entry (such as a start or end year) to make your reports work correctly.

Overview
To access a screen, click its name. The resulting screen displays records that are stored for that screen. There are five possible actions you can take from the resulting screen, although not all of these actions will always be available:

- To add a new record, select the **ADD A NEW ITEM** button.
- To import items in bulk, select the **IMPORT ITEMS** button (available only for the Intellectual Contributions screen).
- To delete a record, select the appropriate check box, and then select the **DELETE** button.
- To view or edit a record, select the **edit** icon.
- To copy a record, select the **copy** icon. You cannot copy from one screen to another. If you click on this icon, it opens a duplicate record so that you can easily update. For example, you served on a P & T committee in 2012 and 2013. You may “copy” the 2012 entry by clicking the **copy** icon which will create a duplicate record. All you need to change is the date to 2013 at the bottom of the screen and save.

Read Only Fields
Data imported by the University Budget Office are Read Only. Read Only Fields are marked with an R.

Saving Records
When working in the system, it is important that you preserve modifications by selecting one of the ‘Save’ buttons at the top or bottom of the screen. If you attempt to navigate away from a screen containing unsaved changes, a warning message will display to determine whether you would like to return to the screen and save your modifications before proceeding. **Changes made will not automatically be saved.**

Main Menu*

This screenshot shows the menu on the left side of the screen as well as the Activities Database Main Menu:

*Depending on your access rights, you may see more or less options on the left hand menu.
Managing your Activities

As faculty after logging into AI, powered by Digital Measures, you will be on the ‘Manage Your Activities’ screen. This will display the Activities Database - University Main Menu. From this main menu you are able to access the various links in order to enter information about yourself in the screens that are available in the program. The Activities Database Main Menu follows the University Dossier divider pages, known as rainbow dividers. Please be sure to “Save” after each entry/update on each screen.

Entering Activity Data – General Information
