To Whom it May Concern,

I am interested in joining the CommAgency at Penn State starting in Fall 2019. Growing up spending much of my free time in front of a television set, I found that I grew increasingly curious about the work that went on behind the scenes in order to make the finished product possible. A little over a year ago, I decided to develop this interest further by taking an online certification course in film/video pre-production, where I was able to learn about things like financing and budgeting for a project, developing and writing successful scripts, as well as how to find the right cast and crew. It was after taking this course that I knew I wanted to pursue a career in television and film development and production.

In previous work experiences, I have found that I am able to thrive in stressful situations. Combining this with my organizational skills and positive attitude, I believe that I would be a great fit in this agency. If I were given the opportunity to join CommAgency, I would hope to learn all that I possibly could and gain hands-on experience, so that I could feel confident in knowing that I have the skills necessary to pursue my dream career.

Thank you for your consideration,

Michelle Doherty
