29 October 2019

Hello Ms Grant!

I am a high-energy, dedicated, and hardworking film/video junior at Penn State University, and I constantly looking to create new ideas and new experiences with video content. I have extensive experience as a videographer, from directing and editing short films with my friends in middle school to honing that passion into creating content for cooking shows like It is a Keeper, news stations like C-Net, personal and academic short films, as well as promotional content for nonprofit organizations like Little Creek Lodge Rehabilitation Center and Griffin Pond Animal Shelter. I come from a rural Northeastern Pennsylvania upbringing, and while I value my home, I have chosen to seek a job at Comm Agency because I love producing video content, especially videos that are high-energy, innovative, and fun. Beyond my skills as a content producer, videographer, and editor, I am very upbeat and bring a friendly presence with me wherever I go.

Thank you so much for this opportunity and for your consideration!

Sincerely,

Jack Meyer
