Assistant Principal

Tess Jarvis, M.Ed.
Director of Guidance

To whom it may concern,

It is a great pleasure for me to recommend Victoria (Tori) Murphy for admission to your institution. I have known Tori for the last four years. Tori was first a student in my CP biology class and then in my honors biology class. I have also known Tori as her varsity soccer coach for the last two seasons. Tori is the type of student and player any teacher or coach would love to have. She is mature beyond her years, responsible, and down to earth. As a student and player, she consistently works towards improvement. She accepts criticism, asks questions, and freely engages with others. As a freshman, Tori started in my CP biology course. She earned a high A in the course and proved she could be challenged further. She herself asked to transition into an honors level course for the second part of the year. Here, she continued to challenge herself and earned an equally as high grade. Since then, she has continued to select honors courses and advanced placement courses and was selected as a member of National Honor Society. In addition to playing soccer and being a member of National Honor Society; Tori is also a member of International Club and Leadership Club, which is a group of leaders from each sports team planning ways to give back to the local community. Tori also is a tremendous basketball player and has played all four years of high school. She loves to volunteer to assist in local events especially assisting with the Special Olympics. While at school (and even out of school when she has time), Tori works diligently as a project leader for the school's video yearbook. She is truly talented in media production and has a true passion for communications.

While I loved having Tori as a student in my classroom, I came to truly know Tori as a player on my varsity soccer team. As a junior, her peers and coaches selected her to be captain of the team for her leadership skills and maturity. On the first day of tryouts, after completing her timed mile test, Tori went to run an extra quarter of a mile with a younger player who was struggling to finish. Actions such as these are not rare for Tori. She has earned the title of Captain for the second year in a row and has proven yet again to set a high standard for future members of the program. She is the go-to player on the team in which teammates can turn to for support, advice, a listening ear, or a hug. She is inclusive to all, a strong leader both vocally and through action, and a true team player.

I could not think of a better student to recommend to your institution. Tori hopes to pursue an education and career in communication with a focus on media production. Tori's bubbly personality and the passion she has for all she does, will undoubtedly fuel her future success. I have truly enjoyed getting to know Tori over the last four years. Her positivity radiates to others. She is kind, empathetic, patient, willing to assist others, and most importantly, determined to succeed. I thank you for your time and consideration of Victoria Murphy. I truly believe she will be a welcomed addition to your institution. If there is any additional information I can provide you with, please do not hesitate to ask.

Regards,
Emily Para, ATC
