

I am looking to expand my knowledge of the PR world and learn more about the organization I am working with. I look forward to meeting other people my age with similar tasks and goals for the internship. Working with this organization can also help me with my time management and organizational skills needed for a professional environment. Having real world experience will benefit me and help me learn what I am looking for as a profession. I look forward to getting hands on experience that cannot be achieved in a classroom.
