

With the goal of entering a career in Entertainment Public Relations post-graduation, I believe this internship will be beneficial in expanding my skill set and providing me with additional experience in the field. My responsibilities in this position such as identifying media opportunities, creating pitch angles, and drafting internal and external materials for clients will better prepare me for the job I acquire after graduation. Additionally, I will be collaborating with executives who were influential at their previous well-known agencies. In this role, I will be working alongside several other interns which will strengthen my teamwork skills and enhance creative development. I strongly believe that this internship will boost my chances for starting a career in a competitive industry at a company that I desire.
