

An internship would prepare me as I graduate Penn State University this year. I would like to get a jump start on my career and not wait to look for opportunities after graduation. I would like to do an internship, learn and grow in my field, and be ready for employment as soon as possible. Studies show that most people that do an internship receive job offers immediately after. I would like to be one of those people and as a military veteran this would be meaningful to me as I am not in the civilian world.
