

Harrison Brinker

With graduation around the corner, it is extremely important to me to get an internship. Although I have applied to many companies, I have yet to be accepted and work in the film business. With Palinka Pictures, I hope to not only gain as much real-world experience as possible, but also bring a good work ethic and help the company as much as I can. I hope to see my work among finished films and leave this internship proud of the projects I assisted with. After graduation, I hope to work in the film industry in either a writing or post-production position.
