

I'm pursuing a spring internship with the CDT so that I can get more reporting experience under my belt. I've been editing for a longer amount of time with The Daily Collegian and haven't had any outside experiences yet. I'm excited to be a news reporter for the local community. I hope to be an editor somewhere after I graduate, but I miss writing and would like to do that while I'm still in school. I hope to get more experience with writing with this internship.
