Comm495 Statement

I desire an internship with The Game Haus because I am looking to fulfill three credits towards Comm495 by the time I graduate, and I have already completed one (with the Lancaster Barnstormers) and plan to do one more credit next school year. I also desired an internship where I would be able to write about a sports team of my choosing, and The Game Haus has given me that opportunity to write about the Philadelphia 76ers. In this internship, I hope to gain more experience writing about basketball, but also learn more about how sports websites run and how to get the highest number of interactions for my stories. This internship will line up closely with my career aspirations, as I want to go into sports writing after I graduate. Overall, this is an internship I think will be valuable for developing my writing skills more, while putting another needed credit towards Comm495.
