

For this internship, I knew I would be intrigued from it based on the original email from Bob seeing Tanya looking for new interns. After reading the job description, I knew I would enjoy every aspect of the internship. Through my previous internship from January-August 2022, I fell in love with the AD/PR side of the sports industry. Seeing social media and marketing tasks within the internship, it was something new I wanted to tackle. I am excited to begin a new type of internship that will allow me to become very team-oriented and open minded as well.
