Internship Statement

July 27th, 2022

I wish to be an intern within the PSU Athletics Football Video Board Department in hopes of gaining exposure to filming and being on the sidelines of live sports while learning valuable skills that will help me in the communications industry in the future. I hope to find a better understanding of film equipment, how to set up and tear down cameras, and eventually see the true ins and outs of live sports filming/broadcasting. As of now, I am interested in Sports Broadcasting and Public Relations in general, as potential career aspirations. I am hoping that this internship will allow me to better navigate which path in communications that I would like to take once I graduate. By being accepted by the Video Board Department to become an intern, I am very eager to get back to Beaver Stadium and soak in every bit of information and experience that I can in this new endeavor and assist the department in any way that I can.
