

Rodney LaBorde Internship Statement.

The reason I'm acquiring an internship with Pearl Gluck is to gain hands-on experiences in the filmmaking world. I want to make sure I learn as much as I can before I leave school to give me the best advantages when pursuing my career in filmmaking. I also want to make myself as marketable as possible upon graduation to help obtain a job in such a competitive field. The reason I chose this internship specifically is to broaden my film-making skill set as well as to continue to work with Pearl, someone I have taken two classes with before and respect greatly in this field.
