

I desire an internship to gain experience in a professional office setting while collaborating with co-workers on projects I am enthusiastic towards. I look forward to the ability to gain experience reporting to a manager and having firm direction towards a common goal of the company. I am also excited about applying my media skills I have acquired through my academic career and reaching a larger target audience for the company. I hope to enhance my communication skills with company clients and improving upon my interpersonal skills. I also hope to improve upon my knowledge of Adobe.
