

I've accepted a sales intern position at Ardian Technologies for the Fall 2022 semester. I hope to learn more about the sales field and the telecommunications field with this opportunity. I will work 20 hours a week helping the sales staff. I hope this opportunity will prepare me for when I graduate in December. This position is a hybrid opportunity therefore I am taking my courses this semester through World Campus and hoping the internship could help me achieve the credits to graduate.
