January 30, 2023

Color Of Thought Creatives Digital Branding Internship

I wanted this internship position for a handful of reasons. I'm a senior, graduating in the Spring, and have wanted to get some real hands-on experience my whole college career to learn more about what I could be doing in the real world post college. I hope to learn more about the branding world and how to work for clients successfully. When I graduate I'd like to ideally try to enter the public relations or marketing world. So, hopefully I enjoy this experience and learn more about the techniques of digital branding.
