

Maddie Girard

Over the summer I interned at Make-A-Wish Metro New York and I am continuing it through the fall semester. Over the summer I gained a lot of experience working in an office environment and learned a lot about marketing of a non-profit organization. Throughout this semester I hope to gain more experience in the field while working remotely. Also it taught me a lot about time management and gave me working experience. I hope to continue getting this amazing experience and hopefully start my career with MAW.
