

PSU Internship Statement

I desire this internship for this upcoming summer because it will help train me to keep a solid and healthy working mindset throughout my summer break. Maintaining this work ethic will help me in future work settings as well as having expectations of more work than usual. From this internship, I hope to improve my confidence and method of speaking in front of others. I also hope to obtain new leadership skills at this internship because I will have to be in charge of controlling our customers actions and help to make sure the workplace itself is positive and succeeding. I aspire to be a trustworthy and positive leader figure in my future jobs, so I do hope this internship will help me find those characteristics to earn that title as a person in and outside of my work environment.
