

Peyton Reedy- Internship Statement-

I am studying to become a sports journalist for the future. I hope to work for any major league sports team as either a broadcast journalist, photojournalist, or even on the social media side. I am looking to do an internship because I want to be able to get hands-on experience as early as I can to prepare for my future career. I want to ensure that I am ready and prepared for any future opportunities that come my way. Not only do I hope to get experience, I am hoping to work on my teamwork, leadership and communication skills.
