### **Internship Statement**

As someone who is graduating next semester, I desire an internship because I believe that it will help me network and refine the skills that I have acquired through my experiences at Penn State. Within my internship with Bolt PR, I hope to ultimately learn more about the agency landscape and what it means to truly go into digital marketing work. I believe that Bolt PR has prestige and an internship program that will allow me to collaborate within different spaces in the agency and help me ultimately boost my portfolio of work. I aspire to work in digital marketing for my overall career because of the flexibility of working in different sectors and the fast-paced landscape that will allow me to constantly learn new things within my career.
