17th January 2023

For the summer of 2023, I look forward to working for the South Florida Collegiate League. I will be interning as the Social Media and Website administrator and keeping in close contact with the Boca Raton Snapper team specifically. I am excited to broaden my experiences and I desire this work by immersing myself in a different league, area, and demographic. A hope set for myself and the team is to grow their social media engagement and draw more visitors to the games. My career aspiration is to work in a highly respected MLB or NBA team in the future, and these experiences are getting me one step closer.

Thank you,

Kendra Houp
