

I desire an internship in order to gain professional experience in the field of Communications, specifically Public Relations. By seeking an internship abroad, I want to develop my professional skills as well as my cultural competency to better prepare me for my future career. I aspire to attend law school after graduating from Penn State. My goal is to one day become a practicing attorney. I hope to explore the field of communications, while also being placed in an internship that will facilitate my development of legal and/or critical and analytical thinking skills to better prepare me for my future career.
