

*A five (5)-sentence statement (ideally a typed PDF file) discussing why you desire an internship, what you hope to get from an internship, and your career aspirations. This question must be answered in order to be approved for a for-credit internship.*

I desire an internship because I have always wanted my time in college to be rather than just an academic path, one that includes extracurricular activities that enrich my skills and knowledge by grasping opportunities both provided by PSU and outside the university but that fit my personal interests. From an internship I hope to get time to learn outside of the classroom, and to participate in real life experiences to become as well rounded as I can as a professional, even before graduation. My career aspirations include earning a leading position in a creative department (either a marketing director or creative director, for instance) inside the interior design or home décor industry, a path I have discovered to be in love with after trying out and getting to know different industries and experiences in my past.
