

As a journalism major I hope to gain experience in the industry to help me realize the direction I would like to go in. I previously interned and *albemarle Magazine* and gained a lot of insight into parts of the industry I would prefer to go into. At this internship I was able to get a lot of experience and insight into different types of work, such as: design, editing, publishing, advertising, feature writing, and photojournalism. Now that I have gained experience I wish to further enhance my abilities and add more creative and specific pieces to my work. I wish to refine my skills further and build my portfolio so I have a better chance of making it in the magazine industry in particular, which is something I have found I love.
