

Ashlyn McMorrow

Statement

I am really interested in continuing my internship at Jonesworks this fall. After interning here this past summer, I want to continue to learn more from the team. I have been working on multiple accounts and want to follow through with the work I am doing this summer into the fall. I feel as though it takes time to adjust to a workplace environment, and having the opportunity to continue this experience would only benefit me and give me a better understanding of the industry. I am excited to see what the future holds and what may come from this internship program!
