

I am interested in pursuing an internship next semester to further my education in the field of public relations and, specifically, entertainment public relations. When I read the email from Bob Martin about Mezz, I knew this was the opportunity I had been seeking. As well as gaining valuable experience, I hope to develop relationships with my coworkers that I can continue to build over time. In the future, I would like to work in entertainment PR. This internship will be a significant step toward my goal.
