Students in the major benefit from a mix of hands-on, professional work and theoretical approaches as they explore core competencies and current industry practices. They develop the skills to become leaders in all forms of electronic media, including broadcast and cable TV, the internet, radio and telephony.

Students plan and complete projects such as webcasts of the annual Penn State Dance Marathon (THON) and the Homecoming parade. Students may specialize in management and entrepreneurship, audio and video production, law and policy, or international telecommunications. In the rapidly evolving telecommunications field, students are prepared to work in the industry in a variety of capacities.
